

Wellness Centers made just for the Black Community

Have you noticed the lack of people of color in yoga studios? My service Black Healing Matters benefits Black women and men within the ages 16 and up, who enjoy **healing** in the form of yoga in San Francisco.

3 Ways a Customer Benefits From My Product

1. People of color are able to enjoy yoga without feeling like they don't fit in
2. Brings Black individuals together to encourage their strengths, health, and **wellness**
3. Provides health and wellness within the Black community for women and men for ages 16 and up in urban areas

Responses from Customers

My customers would say,

- “I appreciate that there’s finally a place just for us, people of color, to get the spiritually healing that we need.”
- “I love that Black Healing Matters focuses on the wellness of the black community.”
- “I am so happy that Black Healing Matters exist because being around people who don’t look like me and people who can’t really relate to me makes me feel uncomfortable.”
